WORK EXPERIENCE

Position	Company	Experience
Full Stack Developer	Digisailor, Tuticorin, TN	2018 - Present
Web Developer (Internship)	Digisailor, Tuticorin, TN	6 months

PROJECTS

Custom Warehouse Management

- I have created the Warehouse Management as per the client requirements using Laravel.
- Have used the Query Builder to perform all the database operations in my application.

Vehicle Management System

- Created few Customized Modules in Vehicle Management System in MVC using AngularJS.
- I worked on backend process. server management and database optimization.

WooCommerce

- I have worked on creating Redbasket.sg which is designed in Wordpress & used as Online Grocery.
- Implemented all Payment Gateway and customized the App as per clients requirements.
- I Faced Challenges while hosting it upon AWS, Since AWS don't send emails to unverified users. This is core part as New Customers will register using new Email Id.
- Configured all Ports and Routes in AWS and created an SES to send and receive mails using SMTP in AWS
- Conducted compatibility tests, testing software across a multitude of platforms to ensure universal compatibility.
- Created WooCommerce Web Apps for mobile in Android

Websites(PHP, HTML)

- I have worked on Various custom Website creation using HTML, CSS, JQuery.
- Managed the development of applications on company web sites including the development of functional specifications, interface design, coding, and testing.
- Have even designed a custom single page website using Particle.js for client requirements.
- Maintained and also provided support even after Completion of Projects and handled clients diplomatically.
- Maintaining all client data in Cpanel servers and provided Hosting support and Email Configuration support to clients.

Crystal Clear Management

- This is Country based Client and Contractor quotation management System.
- Also User has access specific country only.
- Every Quotation has multiple invoices and every invoice has multiple payments.
- I worked on server management and database optimization.

- I also coordinated and acted as Project manager to deliver projects, Identified and fixed program bugs, leading to a marked increase in customer satisfaction as measured by online surveys.
- Conducted post product launch evaluation to identify successful software features and find ways to improve on them
